

Singtel Satellite

Product Factsheet

Iridium Extreme® and  
Iridium 9555

## Connecting the world like no other

Leveraging the world's furthest reaching and highly reliable network, Iridium satellite phones keep people and organisations on the move anywhere on the planet. Together, Iridium Extreme® and Iridium 9555 deliver more innovative capability and more ways to connect into the hands of people across a range of industries.

**Singtel**

# Iridium 9555

## **A small satellite phone that's packed with power**

Compact yet powerful, the Iridium 9555 is a sleek satellite handset that is backed by unmatched network quality. Ideal for travellers and residents in areas that are prone to natural disasters and without GSM network.

---

# Iridium Extreme®

## **The toughest, most compact satellite handset**

Iridium Extreme® is the first satellite phone to offer fully integrated services of customisable GPS, Online Tracking and Emergency SOS with notification, all in one compact handset. Being highly ruggedised, it is an ideal communication tool for military, maritime, extreme outdoor enthusiasts or anyone who requires a reliable satellite phone wherever they travel.

<b>Usage Control Features</b>	<ul style="list-style-type: none"><li>• User-configurable call timers to manage costs</li><li>• Keypad lock and PIN lock for additional security</li></ul>

# Iridium Global Network

In a world where global communications are increasingly critical, only one company connects everyone to the things that matter most, from pole to pole.

Powered by a uniquely sophisticated global constellation of 66 cross-linked Low Earth Orbit (LEO) satellites, the Iridium® network provides high-quality voice and data connections over the planet's entire surface, including across oceans, airways and polar regions.

For customers, the unparalleled coverage and high dependability of the Iridium network means they can rely on their critical communication lifelines to work when they need them most — anywhere.

## 100% Global Coverage
