

Flash Call Transfer

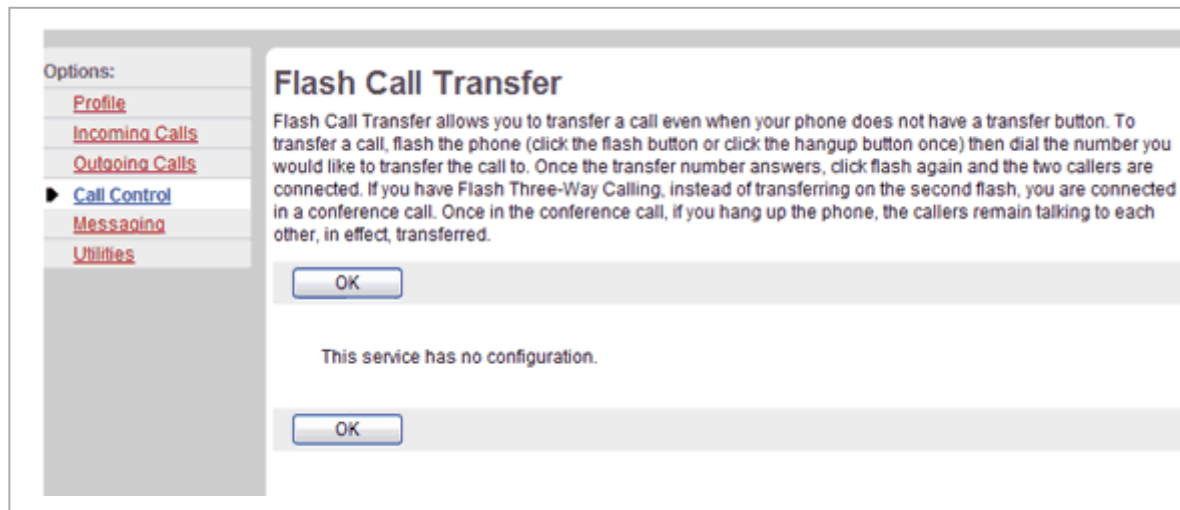

Use this menu item on the User - Call Control menu page to

Transfer a Call at a Phone Without Call Control Functionality

The Flash Call Transfer service allows you to transfer a call at a phone with no transfer button.

Transfer a Call at a Phone Without Call Control Functionality

Use this procedure to transfer a call at a phone with no transfer functionality.

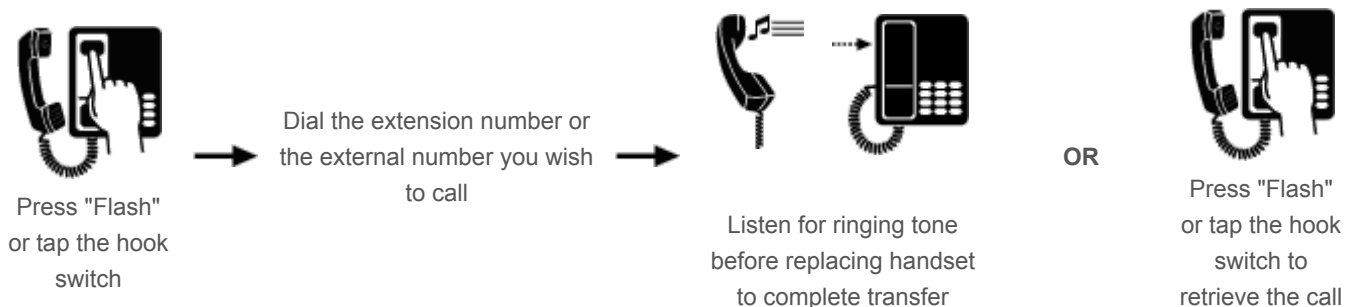

Call Control - Flash Call Transfer

1. On the User - Call Control menu page click Flash Call Transfer. The User - Flash Call Transfer page displays, showing instructions for Flash Call Transfer.
2. To transfer a call at a phone with no transfer functionality, flash the phone (click the flash button or click the hangup button once).
3. Dial the number to which to transfer the call.
4. When the transfer number answers, flash the phone again.
5. To display the previous page, click OK. The User - Call Control page is displayed.

Note: If you have Flash Three-Way Call, you are connected to the two callers in a three-way conference call. Hang up the phone to leave the other two callers connected.

Transfer an incoming or outgoing call to another extension number or an external number.

To transfer call to an extension number :

Note: Call Transfer/Call Forward services are bundled together.
