

Flash Three-Way Call (3-way Conference Call)

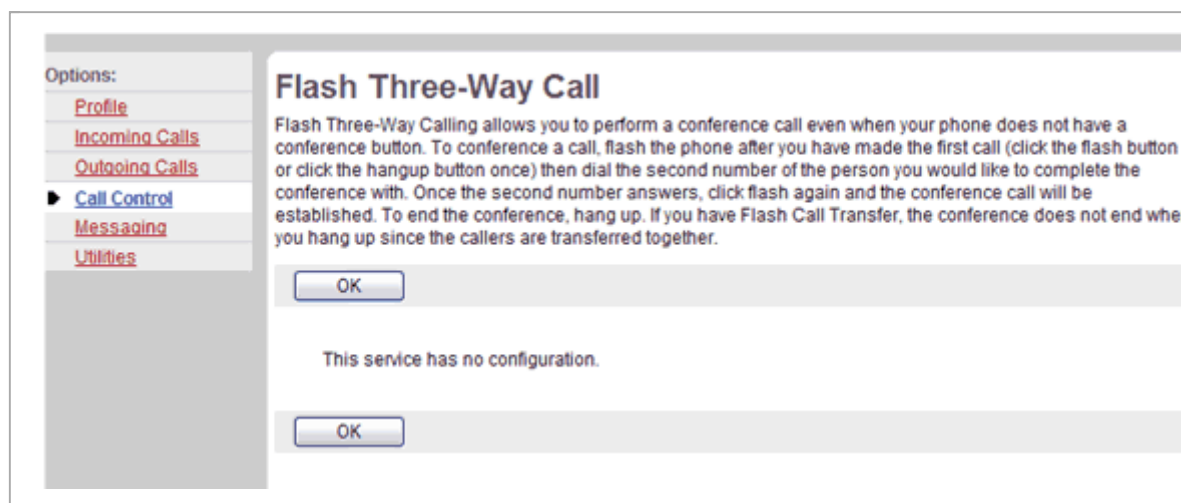

Use this menu item on the User - Call Control menu page to

Connect Three Calls in a Conference Call at a Phone Without Conferencing Functionality

The Flash Three-Way Call (3-way Conference Call) service allows you to set up a three-way conference call at a phone with no conferencing functionality.

Connect Three Calls in a Conference Call at a Phone Without Conferencing Functionality

Use this procedure to connect three calls in a conference call at a phone without conferencing functionality.

Call Control - Flash Call Waiting

1. Call Control - Flash Three-Way Call (3-way Conference Call)
2. On the User - Call Control menu page click Flash Three-Way Call (3-way Conference Call). The User - Flash Three-Way Call (3-way Conference Call) page displays, showing instructions for Flash Three-Way Call (3-way Conference Call).
3. To set up a three-way conference call at a phone with no conferencing functionality, make the first call.
4. When the number answers, flash the phone (click the flash button or click the hangup button once).
5. Make the second call.
6. When the second number answers, flash the phone again.
7. To display the previous page, click OK. The User - Call Control page is displayed.

To have a conference call between 3 parties:
