

# 5G-powered world Inspiring ideas from ambitious enterprises

Prepare to be inspired! Singtel's 5G trial network is already running pioneering use cases for

enterprises in Singapore, in multiple sectors. Singtel 5G at a glance

- **Increased connectivity**
- **Low density**
- 5G & Manufacturing:
- Making the most of the opportunities.

## and longer lifespans. Augmented reality inspections

AR headsets let engineers carry out

inspections in remote locations quickly, easily and cost-effectively. Remote robotics Controlling autonomous machinery

remotely is providing a safer way to work

5G & Healthcare:

## Getting better all the time.

in hazardous environments

Autonomous cleaning

The sky's the limit.

safety risks.

**5G & Aviation:** 

Video detection & analytics

combine to detect runway activity and reduce

Analytics, HD video and machine learning

Private airport networks

Advanced private wireless networks allow airports with 5G to operate independently

Advanced patrol robotics and video imaging provides a valuable view over vast areas in

Autonomous patrol

Drone inspections

Final thought...

real time

5G & Oil and Gas:

Fuelling a brighter future.

The 5G future belongs to those enterprises that

and partner carefully. Will you be one of them?

recognise the benefits, react quickly, plan thoroughly

**Choose Singtel for 5G** 

**Increased connectivity** 

- Create & develop unique applications
- Unlock possibilities with IoT & real-time data
